

## CLUB ANGLERS NEED PROTECTION!

Don't get caught in foul weather this season without Phace protection. The howling wind, driving rain and bitter cold you have been dreading for years is now a thing of the past.

Save Phace has invented the world's first Sport Utility Mask which is designed to eliminate all of the pain to the Phace associated with boat travel. It is light weight, stores easily and looks very cool!

## AND WE ARE OFFERING A FANTASTIC DEAL TO CLUBS ACROSS AMERICA AND CANADA!

With a prepaid order of five masks, Save Phace is offering a 20% discount and we are going to throw in a free mask of our choice. We ask that the free mask be used as a raffle prize or for charity fundraising.

## THAT'S RIGHT FREE!

Give us a call today! Finally you can use your club as leverage for a better deal. Your discounted cost for the JUST ILL series is \$47.99 (solid colors) and \$55.99 for the graphic SIMPLY SICK series. Shipping in most cases is about \$15.00 for the whole order.

Offer ends 12/31/2011 so give us a call today with any questions you may have. Retailers are encouraged to get involved too so have yours call us.
